METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XIV.

May, 1936—October, 1936.

KENNEDY PRESS LIMITED
21, Albion Street
GAYTHORN, MANCHESTER 1

INDEX

A

Page

Annealing Furnaces and Their Heat-Elements, Electrical. By Dr. W. Rohn and J. E. W. Ginger, D.F.H., A.M.I.E.E., V.D.I. 7–9
Alloys, High Strength Zinc-Base. A. H. Mundey 20
Alternators for New Zealand, Large 38
Arc Welding of a Special Steel. By L. Sanderson 48
Aluminium Alloy for Parts Working at Elevated Temperatures, Wrought 62
Application of X-Rays to Metallurgy. By C. Hubert Plant 71–73
Alloy Steel Castings, Production of 85–88
Application of X-Rays to Metallurgy. Part II. By C. Hubert Plant 101–103
Application of X-Rays to Metallurgy. Part III. By C. Hubert Plant 121–122
Alloy Components of the Magnesium Base Type, The Problem of Efficient Enamelling of Light. By E. E. Halls 157–161
Aluminium Industry, Recent Advances in the 175–176

B

British Iron and Steel Manufacturers Embarassed 5
British Railways Wagon Control ... 6
Bimetallic Corrosion Promoted by Copper Aluminium Contacts. By P. Mabb 29–31
British Foundry School, The 34
Bronze Bearings, Phosphor. By a Special Contributor 67–69
Blast Furnace Gas. Measurement of 69
Blast Furnace Slag, Utilising 74
Bliss Cluster Mill, Combined Double Reduction Gear and Pinion Housing for 78
Britain's Home and Export Trade .. 89
British Chemical Standard, A New. 106
Bronzes in Machine Construction. By John W. Watson 173–174

C

Copper Aluminium Contacts, Bimetallic Corrosion Promoted by. By P. Mabb 29–31
Centrifugal Casting Process Commemorated, Development of 34
Copper in Wrought Steel 35–36
Cast Iron and the Engineer. Professor A. L. Mellanby 43
Cupola Mixtures, Methods of Estimating. By E. C. Rollason, M.Sc. 49–52
Canada, The Mining Industry of .. 54
Copper Cliff Concentrator, The 60
Combined Double Reduction Gear and Pinion Housing for Bliss Cluster Mill 78
Copper and Copper Zinc Alloys, Working. By Wm. Ashcroft ...90–100
Corrosion Resistance of Solder, Effect of Impurities on 108
Canadian Mineral Industry and Its International Importance, The .. 120
Chromium Steel Valves, Forging. By A. G. Arend 144

D

Page

Development of Non-Ferrous Metal Industries 19
Development of Centrifugal Casting Process Commemorated 34
Developments in the Foundry Industry During Recent Years. J. E. Hurst 37–38
Dusseldorf Meeting. Works Visits 131–141
Developments in the Physical Chemistry of Steelmaking. J. G. Bamford 161–162

E

Electric Furnaces in Sheffield, Exhibition of 4
Electrical Annealing Furnaces and Their Heating Elements. By Dr. W. Rohn and J. E. W. Ginger, D.F.H., A.M.I.E.E., V.Di. 7–9
Escape of Electricity from Metals, The. The Practical Consequences 10
Electric Melting Furnaces, Repairs to. By Walter Lister 21–23
Engineer, Cast Iron and the. Professor A. L. Mellanby 43
Estimating Cupolo Mixtures, Methods of. By E. C. Rollason, M.Sc. 49–52
Electrically Produced Heat 94
Evolution of the Welded Tube Industry. By Gilbert Evans 95–98
Effect of Impurities in Corrosion Resistance of Solder 108
Economy and Efficiency in Iron and Steel Manufacture. Installation of Coke Ovens and By-Product Recovery Plant at the Works of the Workington Iron and Steel Co. 113–117
Empire Exhibition in South Africa. 118
Electroplating. D. J. McNaughton 151–153
Efficient Enamelling of Light Alloy Components of the Magnesium Base Type, The Problem of. By E. E. Halls 157–161
Electroplating Plant and Practice 177–178

F

Forging Steel Components 1–4
Foundry Industry, Future Developments in the. By H. Winterton .. 33
Foundry Industry during Recent Years, Developments in the. By J. E. Hurst 37–38
Foundrymen Discuss Problems ..39–43
Foundry, Modernising the 45–47
Forthcoming Meetings 60
Forging Chromium Steel Valves. By A. G. Arend 144
Foundry Congress in Dusseldorf. 145–146
Forthcoming Meetings 162

G

Gas, Measurement of Blast Furnaces 69
Gas Firing of Metallurgical Furnaces. By a Special Contributor 107

H

Page

High Strength Zinc Base Alloys. A. H. Mundey 20
Heat, Electrically Produced 94
High Temperature Insulation 98
Humboldt Deutzmotoren A.G., The Works of 179–180

I

Iron and Stee Manufacturers Embarassed, British 5
Iron and Steel Institute, Annual Meeting in London 11–15
Insulation, High Temperature 98
Iron and Steel Manufacture, Economy and Efficiency in. Installation of Coke Ovens and By-Product Recovery Plant at the Works of the Workington Iron and Steel Co. 113–117
Important New Developments in Nova Scotia Gold Mining 118
Institute Meetings Abroad 119
Institute of Metals, Paris Meeting 123–128
Iron and Steel Institute, Autumn Meeting at Dusseldorf 129–130
Iron and Steel Production, Progress in 165–172
Iron and Steel Plant of Messrs. Guest, Keen, Baldwins Iron and Steel Co., Ltd., at East Moor, Cardiff, The New 165–172

L

Lime and Soda-Ash Water Softening 23
Large Alternators for New Zealand 38

M

Metals, The Escape of Electricity from. The Practical Consequences. C. C. Paterson, O.B.E. 10
Metals in the Light of Modern Physics, Strength of 17–18
Modern Rolling Mill Gears 18
Modernising the Foundry 45–47
Methods of Estimating Cupola Mixtures. By S. C. Rollason, M.Sc. 49–52
Mining Industry of Canada, The .. 54
Metal Specimens for the Microscope, The Preparation of. By R. C. Stockton 57–58
Metals and Alloys Used in Steelmaking, Some 63–66
Measurement of Blast Furnace Gas. 69
Metallurgical Literature and the Technical Library. By A. D. Roberts, F.L.A. 77–78
Metallurgical Furnaces, Gas Firing of. By a Special Contributor 107
Modern Extrusion for Tube Manufacture. By Gilbert Evans ...142–144
Malleable Iron Foundry Industry, Pulverised Fuel Equipment in 149–150
Machine Construction, Bronzes in. By John D. Watson 173–174
Metal Industries, Safety in the 181

E.Eng.Lib.
Chem.Eng.

N Page

Non-Ferrous Metal Industries, Development of the 19
New Zealand, Large Alternators for 38
Non-Materials, The Testing of. H. S. Vasson 90
Non-Ferrous Components by Acid Treatment, The Spoilage of. By E. E. Halls.....91–93
Nickel Steels at Low Temperatures 105–106
New British Chemical Standard, A. 106
Novia Scotia Gold Mining, Important New Developments in..... 118

O

Outstanding Welding Achievements 52

P

Preparation of Metal Specimens for the Microscope, The. By R. C. Stockton 57–58
Phosphor Bronze Bearings. By a Special Contributor 67–69
Problems Relating to Tin 74
Production of Alloy Steel Castings. 85–88
Paris Meeting of the Institute of Metals 123–128
Progress in Steels for the Petroleum Industry. By L. Sanderson...147–148
Pulverised Fuel Equipment in the Malleable Iron Foundry Industry 149–150
Physical Chemistry of Steelmaking, Developments in the 161–162
Progress in Iron and Steel Production. Iron and Steel Plant of Messrs. Keen, Baldwins Iron and Steel Co., Ltd., at East Moor, Cardiff 165–172

R

Rolling Mill Gears, Modern 18
Railways Wagon Control, British.. 16
Repairs to Electric Melting Furnaces. By Walter Lister.....21–23
Rotary Air and Gas Compressor.... 108
Recent Advances in the Aluminium Industry. F. C. Frary 175–176

S

Steel Components, Forging..... 1–4
Strength of Metals in the Light of Modern Physics 17–18
Seventeen Years' Work of the Physics-Technical Institute of the U.S.S.R. By a Special Correspondent 24
Stakhavnov Movement, The. By a Special Correspondent 32
Steel, Arc Welding of a Special. By L. Sanderson 48
Southern Rhodesian Mines, The ..53–54
Silver and Its Uses in Chemical Plant. By Arthur Haslam, B.Sc. 59
Some Metals and Alloys Used in Steel-making 63–66
Slag, Utilising Blast Furnace 74
Steel Castings, Alloy Production of 85–88
Spoilage of Non-Ferrous Components by Acid Treatment, The By E. E. Halls 91–93
Suspended Combustion Chamber Walls 106
Solder, Effect of Impurities on Corrosion Resistance of 108
South Africa, Empire Exhibition in. 118
Steel Valves, Forging Chromium. By A. G. Arend 144
Steels for the Petroleum Industry, Progress in. By L. Sanderson. 147–148
Safety in the Metal Industries.... 181

T Page

Trained Metallurgists in Demand. By Professor J. H. Andrew, D.Sc. 6
Tin, Problems Relating to 74
Testing of Non-Materials, The. H. S. Vassar 90
Technical Sessions in Paris. Subjects Discussed at the 125–128
Tube Manufacture, Modern Extrusion for. By Gilbert Evans 142–144

U

Utilising Blast Furnace Slag..... 74
United Kingdom and International Trade, The 163

W

Water-Softening, Lime and Soda-Ash 23
Wrought Steel, Copper in 35–36
Welding of a Special Steel, Arc. By L. Sanderson 48
Welding Achievements, Outstanding 52
Wrought Aluminium Alloy for Parts Working at Elevated Temperatures 62
Welded Tube Industry, Evolution of the. By Gilbert Evans.....95–98
Working Copper and Copper-Zinc Alloys. By Wm. Ashcroft....99–100
Works of Humboldt Deutz-Motoren A.G. 179–180

X

X-Rays to Metallurgy, Application of. By C. Hubert-Plant.....71–74
X-Rays to Metallurgy, Application of. Part II. By C. Hubert-Plant 101–103
X-Rays to Metallurgy, Application of. Part III. By C. Hubert-Plant 121–122

Z

Zinc Base Alloys, High Strength. A. H. Mundey..... 20

CORRESPONDENCE.

Estimation of Free Cyanide in Cadmium Plating Solutions....75–76
Criticisms of Method of Determining Free Cyanide in Cadmium Plating Solutions 75–76
Electric Heating Furnaces and Their Heating Elements 103

REVIEWS OF CURRENT LITERATURE.

Wire Drawing and Cold Working of Steel, Sands, Clays, and Minerals. 16
Der Aufban der Zweistofflegierungen 44
An Introduction to the Metallurgy of Iron and Steel 44
New and Delicate Tests for Tin.... 44
The Outline of Iron and Steel. Chromium Plating. Pearlitic Malleable Cast Iron 70
Corrosion Resistance of Metals and Alloys 104
Foundry Calculations and Drawing. 104
The Technology of Aluminium.... 182
Flotation Plant Practice 182
Standard Methods of Analysis ... 182

RECENT DEVELOPMENTS IN TOOLS, MATERIALS AND EQUIPMENTS.

Alumina Laboratory Ware 25–26
New Soviet Plant for Heavy Industry 25–26
Sintering Installation at the Staveley Works 25–26

Page

Special Annealing Furnace for Crankshafts 79–80
New Aluminium Laboratory at Banbury 79–80
Development of Wolfram Deposits in Southern Rhodesia.....79–80

RECENT INVENTIONS.

Conveying Charges in Metal Heating Furnaces 111
Flux for Aluminium 111
Phosphate Coatings on Metal..... 111
Colouring Zinc Surfaces 111

SOME RECENT CONTRACTS.

Darlington Firm to Build Howrah Bridge 82
Dredging Plant Contracts 82
Re-Organisation of the Maintenance of the L.N.E.R. Line Between Galashiels and Carlisle..... 82
New L.M.S. Wagons..... 82

BUSINESS NOTES AND NEWS.

Attracting New Industries 27
New Soviet Stream-Lined Electric Train 27
A Steel Industry Film..... 27
Royal Aeronautical Society Awards 27
Tees-side Developments 27
Babcock and Wilcox Acquire Rights of the Johnson Water-Tube Boiler 27
Aluminium Alloy Sheet and Strip Material. New Company..... 27
South African Orders for Britain.. 27
Shipbuilding and Engineering Revival 55
New Arc-Welded Design Chart.... 55
Wales and the Tinplate Trade.... 55
Port of London Dock Scheme ... 55
Scrap Shortage..... 55
New Furnace Installations..... 55
New Coke Ovens at Middlesbrough. 81
Fusion of Engineering Works..... 81
The United Steel Company's London Office 81
Specification for Enamelled Copper Wire 81
Activity in Iron and Steel Trade.. 81
Steel Output for June 81
Another Steel Company Installs Pension Scheme 81
Valuable Mineral Discovery in Southern Rhodesia 81
Alluvial Gold Conditions in Southern Rhodesia under Survey 109
Huge New Ingot Mould 109
New Rail Car for Southern Rhodesia 109
Honours for Mr. M. E. Leeds..... 109
North-East Coast Institutions of Engineer and Shipbuilders' Awards..... 109
Diesel Oil from Coal 110
Vickers' Interim Dividend 110
Andrew Carnegie Research Fund.. 110
Silver Jubilee Memorial Cottages.. 154
Foundry Technical Group 154
Non-Magnetic Ship 154
Stantons Increase Blast-Furnace Capacity 154
Effects of Better Trade 154
Steel Imports 154
Queen Mary Sister Ship 154
German Copper Mining in Jugo-Slavia 154
Davy Brothers Acquire Roll Firm.. 154
New Zealand's First Electric Train 154
Education of Youths 183
Imports of Spanish Ore..... 183
New Soldering Compound 183
World Tin Consumption 183
An Unusual Steel Casting 183
Stewarts and Lloyd's Project..... 183
Some Shipbuilding Orders 183
Cost of Gas Production 183
